Aromatherapy Favours & Activities

OUR STORY

Our story began in 2020 with 12 candles, bath salts & bath teas. Now storing up to 2000 variants of products, all still handmade by the same maker, we have expanded not only in our product base but in our workshops too.

Sustainability is at the core of everything we do. From the wax & oils we use, to the packaging, plantable labels and down to every details, we consider veganism, carbon footprint, ecological impact of waste, supporting small businesses, and so much more, in deciding on our suppliers.

Launched in 2023, regular workshops have been a great success, and they're now coming to you as a wedding preparation. Whether you want a custom scent for your wedding favours, an activity for your hen do, or to have your bridal party make your wedding favours, we're here to make it happen!
