

The Alchemist's Satchel

The Modern Apothecary

WEDDING FAVOURS CATALOGUE

Sustainable, Aromatherapy Gifts

OUR STORY

Our story began in 2020 with 12 candles, bath salts & bath teas. Now storing up to 2000 variants of products, all still handmade by the same maker, we have expanded not only in our product base but in our workshops too.

Sustainability is at the core of everything we do. From the wax & oils we use, to the packaging, plantable labels and down to every details, we consider veganism, carbon footprint, ecological impact of waste, supporting small businesses, and so much more, in deciding on our suppliers.

With custom scents, colours, containers, labels and more, you know you'll get the best handmade quality, while accessing a wide network of sustainable businesses and suppliers to make those dreams come true.

WEDDING FAVOURS

Bath Products

Our Bath Salts & Bath Teas make lovely favours, and can be used by anyone. Whether as a foot soak, or a scented bag to keep laundry smelling lovely, they're a great affordable option.

Scented Candles

Available from tea lights to large candles, these vegan, sustainable candles are guaranteed to be a hit. With custom scents and labels too, they'll fit into any theme.

Roller Bottles

Affordable, gender neutral and unusual, these will be remembered and set you apart!

Artisan Soaps

Our bestseller soap bars are the ideal wedding favour. Customisable to fit any venue or theme, loved by all, and with optional plantable labels, these are the perfect wedding companion.

Wax Melts

These can easily be used by everyone, in a ramekin over a radiator or in a burner. They're made from sustainable wax and can be paired with our Build a Scent workshops.

BATH PRODUCTS

Bath Teas

Made from rolled oats, cocoa butter shavings, home grown & dried botanicals and pure essential oils, these are kind to skin and the planet.

They'll turn your bath or foot soak into a smooth, milky and beautifully fragranced experience. Unscented bath teas are suitable for those with eczema, psoriasis and children.

Bath Salts

Available in jars, pouches or other containers, these salts can be used in baths or as a foot soak.

Organic epsom salts, home grown and dried botanicals and pure essential oils combine for an eco-friendly alternative to a bath bomb that'll leave your guests feeling pampered, relaxed and looked after.

Sustainable Vegan Kind

THE ALCHEMIST'S SATCHEL

SCENTED CANDLES

Let There Be Light

Candles are a beautiful offering at any event, but are especially well received as they represent light & life.

Our candles range from tea lights to large containers, with custom scent, decorations, boxes and labels.

You can pair your candle favours order with a Build a Scent workshop, where the happy couple can participate in an hour long venture to invent a unique scent to represent them and their day.

Roller Bottles

Our essential oil blends are a wonderful gift, especially as a travelling companion.

Ready to accompany anyone, anywhere these small bottles will fit in any bag. Your guests will be able to reapply their dose of joy, relaxation, or comfort as they go about your day!

Our labels may look like vinyl, but they're biodegradable films made from algae.

ARTISAN SOAPS

Handmade & Sustainable

Our soap recipe uses by-products of the food industry to reduce our waste and provide the utmost nourishing ingredients. It's also cold process, which is kinder on your skin. That also means they need 6 weeks of curing time!

Custom Scents

Perfect alongside our Build a Scent workshop, these wedding favours can be customised as you please. We offer unscented, gender neutral scents, or you can make your own.

Custom Look

From the shape and colour to the stamp on the soap bars, every detail can be tailored to you.

We suggest a colour that fits your theme, a monogram for your stamp, and botanicals that tie in with your bouquet!

Custom Labels

From recyclable paper to seeded, plantable paper that'll sow wildflowers for the bees, we can make it happen. Along with dried botanicals, or additional packaging, we can name your soap, customise (nearly) every aspect of the label to suit your theme.

WAX MELTS

Our wax melts are our most versatile and affordable offering. Made from sustainable coconut wax and pure essential oils, they're vegan, kind to the planet and pet safe.

Scent

Make your own scent, or choose one of ours, or attend our Build a Scent workshop to invent your own for your big day - there are plenty of ways to make your wax melts unique and tailored to your theme.

Shapes

From flower, to moons, through pumpkins, snowflakes, acorns, leaves, stars and more, we can make your wax melts match the look you're after, with botanicals, eco glitter and dyes.

Packaging

Our sustainable packaging comes in many sizes and shapes. From algae derived compostable cellophane bags to muslin pouches or recyclable boxes, we'll find make your favours beautiful, kind to earth and practical.

PRICE LIST

Our prices are based on 100 units.

Please note that the sliding scale will vary based on size, scent, packaging, and other customisation.
